Why should you choose the Voipia Office Solution?

Today's offices need high quality Phone System

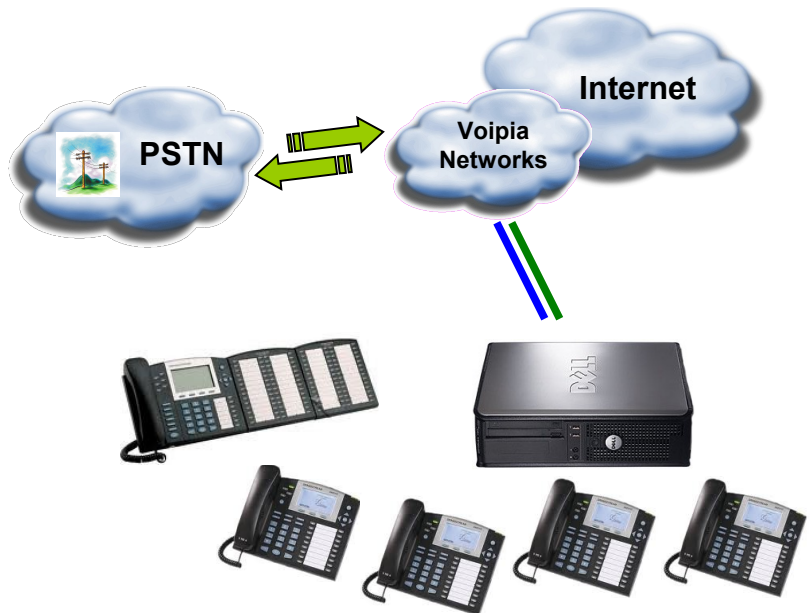

Customers want the service to work with little or no issues

Large purchases are more difficult to credit qualify for today

Voipia's monthly program makes the right technology affordable

Voipia's monthly program is a predictable expense. No Surprises!

Voipia provides a True Phone System with the features included

Easy to order. Easy to use. A certified Voipia installation technician will come out to your office and professionally install our Dedicated Voice ipPBX Server. Once the Voipia ipPBX is activated, our Advanced Phone System will be configured to match your company's needs. Our Phone Technicians will then activate the IP Phones, and train your staff on the ease of use.

Voipia Networks provides High Quality Voice Solutions to individual and Business customers worldwide.

A Business Class Phone System everyone can afford...

About Voipia Networks

Based in Northern California, Voipia Networks is a provider of advanced Voice and Data services to individual and business customers around the world. Founded in 2004, Voipia Networks has grown in to a successful Telecom Company that our customers have come to rely on. From IP telephony solutions for the office to unique software solutions for call centers, Voipia can assess, propose, install, and manage the right solution for every environment. To that end, Voipia strives to provide Voice and Data solutions that give our customers complete control over their communications, drives down the cost of doing business, and creates efficiencies in a competitive world. Our goal is to make our customers more successful.
